• Undergraduate of BICT(Hons) sp. Software System

Faculty of Computing and Technology
University of Kelaniya
2021-2025

Module - Web Programming
Module - Quality Assurance
Module - Projects in Technology
Module - System Analysis and Design

• G.C.E Advanced Level | 2019

Rathnavali Balika Vidyalaya Gampaha
Technology Stream

Information & Communication Technology - B
Science for Technology - B
Bio Systems Technology - C

PROJECTS

• Library Management System(Website)

Our group developed a Library Management System (LMS) using **PHP, CSS, JavaScript**, and **Hack**. It includes features like user registration, secure login, book borrowing management, and comprehensive book categorization, enhancing efficiency and user experience in library operations.

• Internship Finder Web Application

Develop a dashboard for student and company interfaces, utilizing **HTML**, and **Python** for the UI, with **Python Django** handling the backend.

• Portfolio Website

Complete responsive website created using **HTML, CSS** and **JavaScript**

• Frontend of Coffee and Burger website and Login Page

I created Frontend parts using **HTML** and **CSS**.

• Simple Calculator

A login page created by using **HTML** and **CSS** and **Javascript**

• UI Designs for Clothing Store mobile app and Beauty Products Web app

Created UI Designs using **Figma** and **Canva**
